

# **Fivay High School**

## **Puerto Rico Disaster Relief Drive**

Please consider donating the following critical need items to the Puerto Rico Relief Drive. For the safety of our students, all items should be new and turned in before school to tables located in the front of the cafeteria each morning during the month of October. Fivay has teamed up with Agape Flights, a nonprofit group, to deliver these much-needed supplies directly to the hardest hit areas of Puerto Rico.

### **Disaster Relief Items**

- heavy duty extension cords
- work gloves
- tarps
- ropes
- safety glasses

### **Humanitarian Relief Items**

- baby wipes
- hand sanitizer
- baby formula
- mosquito repellent
- first-aid kits

We have already collected pallets of emergency meals and have businesses donating electrical generators and chainsaws; however, we included some smaller items on the list that we will palletize so that individual students and families can also support the relief effort. Fivay's efforts have already been approved by the Governor of Puerto Rico to fly critical needs items to the island. There the items we send will be distributed to the hardest hit side of the island. One teacher will also be accompanying the donated supplies to Puerto Rico to document the distribution of supplies and bring back images and video to share with our student body.

Fivay will also be partnering with a local Puerto Rican Orphanage and School. More information and pictures to come.

Thank you for supporting our effort to help these resilient American citizens in their time of greatest need.

Eric J. Johnson  
Advisor, FHS Student Council
