Fivay students, parents, and community:

Congratulations on a strong finish to the school year!

Together we (the students, staff, parents, and community) celebrated many highlights and accomplished some great things. We:

- merged two high school families.
- had students step up to serve, lead, mentor, and make a difference.
- celebrated amazing student scholastic accomplishments. This year's senior class was awarded over \$180,000 in scholarships!
- celebrated amazing student athletic accomplishments. Many of our senior athletes signed to continue playing in college.
- had our first graduating class of AVID 4 students.
- increased the number of Advanced Placement classes offered and students enrolled in those classes.
- expanded and increased Dual Enrollment opportunities for students.
- successfully implemented the Save Our Students (SOS) program.
- added to our academy programs and pathways to include Fire Science, set up the Ambulance Simulator, and began construction on our Fire Science lab space.
- increased the number of students achieving industry certification (911/Dispatch, CNA, CMAA, and ServSafe).
- implemented the Fivay High School NJROTC program.
- started new student traditions.
- are on track to have an increased graduation rate for this year's cohort.

These accomplishments are many of the reasons why the Fivay Falcon family is so special. Our students are resilient, hardworking, and capable of amazing things. This time of year, we celebrate our graduating seniors, begin implementing plans for the 19-20 school year, and welcome incoming freshmen. It's a season of growth, reflection, and change for our students, parents, and staff as our students move into the next part of their journey forward.

Fivay High School will continue to grow and change as the summer progresses. The Fivay High School administrative team is changing. Mrs. Danielle Lawrence will be heading to River Ridge High School this summer as an Assistant Principal. I know we all wish her the best and are grateful for her dedication to our students. I am headed to Zephyrhills High School to serve as Principal starting July 1, 2019. It has been my pleasure to serve as Principal of Fivay High School and partner with your student and you on your student's high school journey. I appreciate all of the support you have shown me, input you have shared with me, and celebrations we have shared these past two years.

Fivay High School is an amazing place to be and I look forward to hearing more about the accomplishments of our Fivay Falcon Family!

Sincerely,

Christina C. Stanley
