

AP Biology Summer Assignments 2018

Hi there and welcome to AP Biology!

First, before you begin, the College Board pre-requisites for this course include the successful completion of BOTH high school Biology AND Chemistry. If you have not met those pre-requisites, please see your school counselor about registering for one of my other science courses.

Second, you definitely do indeed have a summer assignment. In fact, there are 3 summer assignments. Two due the first day of school. One must be completed before school begins.

Third, in order to receive your AP Biology Introduction Packet (inclusive of summer assignments, an introductory letter from me on what to expect in this class, a school materials needed list, and the College Board AP Biology Course Overview with sample AP Bio exam practice questions) you MUST email the teacher, Ms. Bernhardt at: cbernhar@pasco.k12.fl.us and personally request it. In your email please state you are registered for this class, and would like to have the AP Bio Intro Packet. Please also include a current mailing address and parental contact phone for my records. After I confirm you have indeed met the pre-requisites for this class, I will send you the packet.

Last, I will be reaching out to you and your parents to get to know a little bit about you before classes begin and to answer any questions or concerns any of you may have.

Thank you for your time, and I look forward to working with you.

Kindest Regards,
Ms. Bernhardt (Ms. B)
Fivay High School, Science Teacher
